

# Eco-Grant Top-up Terms & Conditions

- ❖ Organisations are eligible for the Eco-Grant Top-up if they have an existing grant contract with the Zambian Governance Foundation. This excludes those organisations that have an active Earmarked Institutional Support grant contract.
- ❖ Organisations currently under assessment for a grant from ZGF are eligible to apply for this award, however reward is contingent upon the grant application being successful.
- ❖ The modality of this award is the provision of one (1) Vitalite SHS 1500 for the organisation to incorporate into its operations. The manufacturers' warranty and terms and conditions concerning the unit are not affected by this grant scheme.
- ❖ The supplementary grant is non-monetary and is not linked to the existing disbursement obligations of the applying organisations thus it cannot be translated into a cash equivalent.
- ❖ The supplementary grant is not mandatory and organisations that choose not to apply for the grant shall not be penalized.
- ❖ The supplementary grant is non-renewable, non-transferable and cannot be repeated.
